LeetCode | Portfolio

Professional Summary

Computer Science undergraduate graduating in 2027 with hands-on experience building full-stack applications using Java, React, SQL, and REST APIs. Developed Librario, a library management system featuring role-based authentication, payment processing, email notifications, and a Gemini API-powered chatbot. Interested in software engineering opportunities focused on full-stack development and practical AI integration.

Technical Skills

Languages: Java, Python, SQL, JavaScript, C
Frontend: React.js, HTML, CSS
Backend: Spring Boot, Spring Security, Hibernate/JPA, Node.js, Express.js, REST APIs
Databases: MySQL, MongoDB
AI: Gemini API, Generative AI, Prompt Engineering, RAG fundamentals
Core Concepts: OOP, DSA, DBMS, API Testing, Debugging, Software Testing
Tools: Git, GitHub, Postman, VS Code, JUnit

Education

B.E. Computer Science and Engineering **2023–2027**
Velammal College of Engineering and Technology, Madurai CGPA: 7.80/10
Class XII, CEOA Matriculation Higher Secondary School, Madurai 90% (2023)

Experience

Full Stack Development Intern – Infosys Springboard Aug 2025–Oct 2025

- Contributed to Librario, a library management system, involving Java-based application logic, database operations, authentication, and REST API workflows.
- Integrated the Gemini API chatbot after completing the project documentation, alongside payment processing and email notification workflows.
- Validated API workflows and application behavior during testing.

Full Stack Development Intern – SSDC, VCET May 2025–Jun 2025

- Developed and integrated web application components across frontend, backend, and database layers; supported data handling and debugging.

Web Development Intern – Code Bind Technologies Dec 2024

- Developed a responsive website using HTML, CSS, and PHP; reported a 22% reduction in page-load time.

Projects

Librario – Library Management System | Java, Spring Boot, Spring Security, Hibernate/JPA, MySQL, REST APIs, Gemini API | Live Demo

- Developed workflows for book cataloging, membership management, and book issue, return, and renewal operations.
- Implemented role-based authentication for administrators, librarians, and members using BCrypt password hashing and session-based authentication.
- Built REST APIs with borrowing-limit enforcement, overdue fine calculation, and automated notifications; integrated a Gemini API-powered chatbot.
- Tested API workflows and application behavior using Postman, JUnit, and integration testing.

GPA and CGPA Calculator | React.js, Node.js, Express.js, MongoDB | Live Demo

- Built GPA/CGPA calculation logic, authentication, and PDF export with a REST backend; reported usage by 50+ students.

VCET LeetCode Status Tracker | React.js, Node.js, MongoDB | Live Demo

- Built an application to retrieve and store LeetCode statistics and rank students by coding progress.

Achievements

- Solved 150+ LeetCode problems covering arrays, strings, hashing, and other data structures and algorithms.
- Earned the LeetCode SQL 50 badge by completing the SQL 50 study plan.
- Secured Second Place in the Symposolve Hackathon at Velammal College of Engineering and Technology.
- Secured Sixth Place in an inter-college Full Stack Development Hackathon.

Certifications

- Generative AI Unleashing – Infosys Springboard
- Generative AI for Everyone – DeepLearning.AI, Coursera
- Prompt Engineering for ChatGPT – Vanderbilt University, Coursera
- Retrieval Augmented Generation (RAG) – DeepLearning.AI, Coursera
- Python for Data Science, AI & Development – IBM, Coursera
- Fundamentals of Java Programming – Board Infinity
- React Basics – Meta, Coursera
- SQL – University of Michigan, Coursera
- Software Testing – NPTEL, IIT Madras (Elite)
- Cloud Computing – NPTEL, IIT Kharagpur
